LANGUAGES

INTER International Education & Trainings offers high quality language courses run in different parts of Europe depending on language taught. The courses are in UK, Cyprus, Germany, Italy, Spain or Poland.

INTER International Education & Trainings invites to take part in courses of: English, German, Italian, Spanish and Polish.

Teachers

The courses are being run by professional teachers with great experience in teaching foreign students. Our staff is open-minded, friendly but demanding. The main aim of a teacher is to encourage his/her students to learn more effectively and use the knowledge gained so far in order to make an enormously big progress in a short time.

Courses

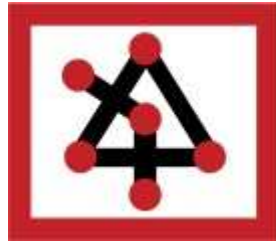

Courses are run in small groups (4-6 students), what enables the teacher and student to establish and stay in close relation during the course and after it, as friends. The main aim is to discover and gain strong motivation in order to improve language competences.

Teaching methods

While having the classes emphasis is being put on developing communication abilities, as well as on key language competences, which are: reading, writing and comprehension.

Didactic materials

Courses are being run with the usage of wide range of didactic materials, developing different language competences. We use equipment like: VCR, DVD, CD, press articles, films, music etc.

INTERCULTURAL WORKSHOPS

INTER International Education & Trainings is a leading institution providing intercultural workshops for young and adults.

Our aim is to create and implement professional preparation in the field of:

- intercultural education
- active citizenship
- European Identity
- European Dimension in Education
- culture and stereotypes

Our methods

Workshops are provided by highly qualified trainers, who put emphasis on active participation of each training's participant.

While workshops, audiovisual equipment, multimedia presentations, case studies, simulation games and drama, are being used.

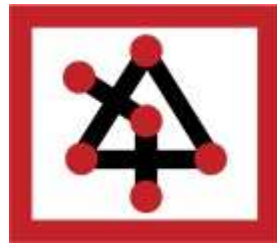

During workshops its participants are being stimulated to work individually and as a group.

Our receivers are the young, pupils, students, graduates, teachers, trainers and other bodies interested in intercultural education.

Benefits

Main results of intercultural workshops are the following:

- preparing beneficiaries to live, study and work in a foreign country
- breaking cultural barriers
- meeting the rules of cultural diversity in Europe
- overcoming the filling of social exclusion
- meeting the stereotypes in Europe and ways of their overcoming
- building cultural relations between people from different EU countries
